

## **Kramer Expands its Array of End-to-End Audio Solutions**

### ***Introducing Four New High Quality, Creative and Dynamic Product Families***

In response to our clients' rapidly changing needs, Kramer Electronics has expanded its end-to-end audio solutions with four new families of speakers. Galil, Yarden, Tavor and Dolev, recently introduced at InfoComm 2014, complement Kramer's growing range of high-quality audio products and reinforce the company's position as a major global player in the audio arena.

#### **Galil Family**

Kramer's Galil family is a classic fits-all speaker solution designed for transportation centers, hotels, educational facilities, small and large boardrooms, shopping centers, and other large venues. Galil is supported by constant voltage amplifiers and Lo-Z to Hi-Z audio transformers.

The Galil line offers an affordable range of 4"/6.5"/8" open and closed (UL) in-ceiling round speakers and an affordable full line of 4"/5.25"/6.5" on-wall speakers. All speakers include tapping transformers (70V/100V/8Ω).

### **Yarden Family**

The Yarden family is Kramer's new performance-based line designed for executive boardrooms, high-end hotels, banks, embassies, government facilities and music halls. Offering exceptional and unprecedented sound quality, Yarden includes 4"/6.5"/8" in-ceiling round speakers and 4"/5.25"/6.5" on-wall speakers with multiple tweeters that provide varying degrees of dispersion for a variety of purposes.

Yarden features stereo or stereo/mono speakers, a music/speech switch to enhance intelligibility, Kevlar(R) woofers, titanium pivoting tweeters such as ceiling-tile speakers, round in-ceiling high-power speakers, on-wall speakers, and more.

### **Tavor Family**

The new Tavor family of powered speakers offers all-in-one solutions where time and space saving installations are important. Tavor includes ceiling-tile speakers, on-wall and subwoofers. The Tavor line is designed for transportation centers, hotels, educational facilities, small and large boardrooms, shopping centers, and other large venues.

### **Dolev Family**

Dolev is a new family of high-quality bi-amplified studio-grade speakers that deliver clear and balanced flat response with low THD even at high volume. Dolev speakers are designed for control rooms, editing studios, sports bars, music clubs, high-end facilities, and home entertainment.

Dolev offers three different models: 5.25" with a 50W amplifier, 6.5" with 75W amplifier and 8" with 100W amplifier.

"Just as we've been committed for over three decades to providing the best signal solutions, our four new speaker families offer our customers the highest quality audio solutions," said Dr. Joseph Kramer, Founder, President and Chairman of

Kramer Electronics and recent winner of the Adele De Berri Pioneer of AV Award presented at InfoComm 2013. "I am confident that Kramer's wide range of new offerings will fulfill our customers' desire for great and affordable sound."
