FOR IMMEDIATE RELEASE:

tvONE's Scott Coltham accepts promotion to R&D Test Team Leader

ERLANGER, KY, September 12, 2013 - tvONE (www.tvone.com), a leading designer and manufacturer of cutting-edge video and multimedia processing equipment, is pleased to announce the recent promotion of Scott Coltham, who has accepted the position of R&D Test Team Leader, based in Margate, UK.

Due to the increased growth and expansion of the tvONE product lines, Scott Coltham will assume his new position effective immediately. In addition to being test team leader, Scott will also be taking on the role of Product Owner. This involves the specification and planning process of certain products or product features. In addition, Coltham will assume responsibility of keeping up to date with industry technologies and trends, involving visiting tradeshow, customer sites and assisting with complex technical application enquiries.

Scott joined tvONE in October 2010 as an R&D Test Engineer. Prior to that, Scott was employed as a Product Development Application Engineer at Extron and a Product Engineer at Electrosonic.

About tvONE

A subsidiary of Nortek, Inc., tvONE is a world class solutions provider specializing in video conversion and AV signal distribution. Headquartered in Erlanger, Kentucky, United States, with offices in Europe, USA, Taiwan, China and Latin America, tvONE provides a complete line-up of products and services for the professional AV and broadcast video markets. Following the global merger of tvONE and Magenta Research in July 2013, the new company tvONE now encompasses these two superior brands under one umbrella.

The tvONE brand specializes in video, audio and multimedia processing equipment, based on its proprietary CORIO® video conversion technology. Products include all-in-one system solutions, windowing processors, scan converters, seamless switchers, video scalers, up/down/cross converters, analog-digital converters (SD/HD-SDI, HDMI, DVI), format converters and standard converters.

Magenta Research is the industry-recognized brand for the transmission, switching and flexible distribution of multi-format video, audio and auxiliary signals over fiber and Cat-X cabling.

Products include AV extenders, distribution amplifiers and matrix switchers for DVI, HDMI, VGA, and component, composite, s-video, audio, USB, and RS-232 signals.
