 PRESS RELEASE

Renowned Musical Institutions Upgrade with Vaddio PowerVIEW Camera Technology

The Grand Ole Opry is the show that made country music famous. The Rock and Roll Hall of Fame and Museum houses the most important collections in rock and roll history. Both reflect some of the most significant movements of 20th-century America. And Vaddio is there to capture every history-making moment.

“We are extremely proud to support the Grand Ole Opry and the Rock and Roll Hall Of Fame with the next generation HD-22 and HD-30 PTZ cameras,” explained Vaddio CEO, Rob Sheeley. “Having Vaddio’s PowerVIEW cameras installed in such renowned institutions is a real honor. As an American manufacturer it is our privilege to be associated with two of the finest American musical institutions in the world.”

For more information please contact Kelly Perkins at [\(763\) 971-4409](tel:7639714409) or by email at kperkins@vaddio.com.

Stop by Booth 518 at LDI 2014!
