FOR IMMEDIATE RELEASE:

**tvONE Unveils 8x8 HDMI Matrix Router with HDBaseT Outputs**

**ERLANGER, KY**, December 5, 2013 - tvONE ([www.tvone.com](http://www.tvone.com)), a leading designer and manufacturer of cutting-edge video and multimedia processing equipment, is pleased to announce the availability of the new MX-8488 HDMI 8x8 Matrix Router with HDBaseT Outputs.

"We are pleased to introduce the MX-8488 for professional installers", said Andy Fliss, Director of Marketing, tvONE. "By integrating HDBaseT technology, the MX-8488 assures customers of the best possible video and audio quality with greater distances as well as the ultimate flexibility by supporting up to 8x8 channels simultaneously."

The new MX-8488 HDMI 8x8 Matrix Router allows distribution of eight HDMI signals (with 3D support) to up to eight HDBaseT outputs for Cat.6 extension as far as 330ft (100m) at 1080p or 1920x1200, either independently or simultaneously. In addition, the MX-8488 also allows for flexible control using IP control, IR remote control, RS-232, or the front panel.

Providing excellent video quality, the switcher uses single link (225MHz/6.75Gbps) video processing circuitry. The MX-8488 HDMI Matrix Switcher is a convenient and cost effective solution for the switching of high quality HDMI video and is the ideal switching solution for boardroom, showroom, or exhibition use.

The MX- 8488 supports HDMI (with HDCP) video with Deep Color, EDID and 7.1 channel audio. HDBaseT Receivers (supports receivers powered by POH) are not included with the tvONE MX-8488. For compatible receivers, please see the 1T-CT-650 Series or the Magenta Research HD-ONE Series.

**About tvONE**

A subsidiary of Nortek, Inc., tvONE is a world class solutions provider specializing in video conversion and AV signal distribution. Headquartered in Erlanger, Kentucky, United States, with offices in Europe, USA, Taiwan, China and Latin America, tvONE provides a complete line-up of products and services for the professional AV and broadcast video markets. Following the global merger of tvONE and Magenta Research in July 2013, the new company tvONE now encompasses these two superior brands under one umbrella.

The tvONE brand specializes in video, audio and multimedia processing equipment, based on its proprietary CORIO® video conversion technology. Products include all-in-one system solutions, windowing processors, scan converters, seamless switchers, video scalers, up/down/cross converters, analog-digital converters (SD/HD-SDI, HDMI, DVI), format converters and standard converters.

Magenta Research is the industry-recognized brand for the transmission, switching and flexible distribution of multi-format video, audio and auxiliary signals over fiber and Cat-X cabling. Products include AV extenders, distribution amplifiers and matrix switchers for DVI, HDMI, VGA, and component, composite, s-video, audio, USB, and RS-232 signals.
