FOR IMMEDIATE RELEASE:

tvONE ships newly enhanced 17" LCD Monitor

ERLANGER, KY, July 25, 2014 - tvONE (www.tvone.com), a leading designer and manufacturer of cutting-edge video and multimedia processing equipment, ships the new LM-1750HDW Multiple Format 17" Color LCD Monitor.

The LM-1750HDW replaces the recently discontinued LM-1750HD. It encompasses all of the features of the LM-1750HD, but with an enhanced resolution to 1920x1080, which allows for the 1:1 display of 1080i/p sources and additional features such as: high brightness, wide viewing angle, excellent contrast ratio and high definition color resulting in an outstanding image.

The LM-1750HDW features inputs for SDI (either SD or HD) with an active output, HDMI, Analog RGBHV, YUV or YPbPr Component Video and 2x Composite Video. A YC input is available and can be used in lieu of one of the Composite inputs. NTSC & PAL Television Standards are supported and automatically detected. Five Stereo inputs are also provided and dual internal speakers driven by a 3 watt amplifier provide stereo audio monitoring capability. Front panel Tally LED's can be activated external via the DB9 connector.

About tvONE

A subsidiary of Nortek, Inc., tvONE is a world class solutions provider specializing in video conversion and AV signal distribution. Headquartered in Erlanger, Kentucky, United States, with offices in Europe, USA, Taiwan, China and Latin America, tvONE provides a complete line-up of products and services for the professional AV and broadcast video markets. Following the global merger of tvONE and Magenta Research in July 2013, the new company tvONE now encompasses these two superior brands under one umbrella.

The tvONE brand specializes in video, audio and multimedia processing equipment, based on its proprietary CORIO® video conversion technology. Products include all-in-one system solutions, windowing processors, scan converters, seamless switchers, video scalers, up/down/cross converters, analog-digital converters (SD/HD-SDI, HDMI, DVI), format converters and standard converters.

Magenta Research is the industry-recognized brand for the transmission, switching and flexible

distribution of multi-format video, audio and auxiliary signals over fiber and Cat-X cabling. Products include AV extenders, distribution amplifiers and matrix switchers for DVI, HDMI, VGA, and component, composite, s-video, audio, USB, and RS-232 signals.
