

## **AMX Exhibits Best in Residential Control, Automation and AV Distribution at CEDIA EXPO 2014**

*Experience the Award-Winning AMX Residential Difference at HARMAN Booth #176*

Denver, CO – September 11, 2014 – HARMAN's AMX welcomes visitors to experience the world's finest residential control, automation and AV distribution solutions at the 2014 CEDIA EXPO. AMX is exhibiting in HARMAN Booth #176 and invites attendees to learn about its new AMX Living 2.0 software platform services that simplify the system design, configuration and commissioning process for AMX residential integrators. AMX is also demonstrating its suite of award-winning products that drive the AMX residential ecosystem.

AMX Living 2.0 relies on predefined system components to decrease setup time, complete faster installations and streamline the development of touch panel pages, control code and system designs. The result for AMX integrators is better reliability and increased profitability, along with the flexibility to expand and upgrade systems to incorporate new functionality. CEDIA attendees can learn more about AMX Living 2.0 by talking with any AMX Residential Sales Representative.

At the heart of every AMX residential control, automation and AV distribution system is the Enova DGX Digital Media Switcher, available to support 8, 16, 32 or 64 sources and destinations. It functions as the centerpiece of a completely integrated residential solution that manages and distributes analog and digital audio and video including HDMI/HDCP, control and Ethernet throughout any sized residence or estate.

The new AMX Alero 8 Zone/16 Channel Distributed Audio Power Amplifier is redefining the multi-room distributed audio experience for end users and integrators by combining 16 channels of world class audiophile sound with the installation convenience of a single rack unit (1RU) height and an extremely energy efficient design.

AMX ensures that management of the AMX residential experience is beautifully simple and simply beautiful with its flagship user interface family, the Modero X Series G5 Touch Panels. These touch panels are perfect for kitchens, home theaters or home offices where the panoramic control surface allows homeowners to view and manage status and activity of all of the home's systems, including AV, climate, lighting and security.

AMX invites you to discover what a truly immersive and simple to manage residential experience should be. Visit AMX at CEDIA EXPO 2014.
