

Introduces HPA Series Multi Channel Amplifiers

Atlas Sound, the leader in commercial audio solutions for over 80 years, is proud to announce the release of the new HPA Series power amplifiers. These workhorse amplifiers provide worry-free 24/7 operation for any application type or load condition.

Each model has 2-channels output that can be used in stereo, bridged, or parallel operation. Balanced inputs allow easy connection of audio sources and stepped attenuators per channel enable accurate setting with security covers that protect settings post installation. A universal power supply auto senses AC current at both 120VAC and 220VAC enabling global use.

Models Available	HPA2602	HPA4602
Power 70.7V	2 x 1300W	2 x 2100W
Power 8Ω	2 x 800W	2 x 1200W
Power 4Ω	2 x 1300W	2 x 2100W

Power 2Ω	2 x 1800W	2 x 2500W
Power 8Ω Bridged	1 x 2500W	1 x 3200W
Power 4Ω Bridged	1 x 3200W	1 x 4800W

"Our customers have been asking for a high powered, 2-channel amplifier for a few years", says John Ivey President of Sales & Marketing. "The HPA Series is the continued evolution of our product line and our brand. Atlas is no longer just a loudspeaker company. We also have high performance, amplification solutions that integrate perfectly with our loudspeaker systems making AtlasIED - the chosen single-source provider for system integrators"

See all of the new products from AtlasIED at the InfoComm Expo in Orlando, FL June 17th-19th, 2015 in booth #1343.
