

TEC 2016 EDUCATION CONFERENCE AGENDA ANNOUNCED

Security professionals of all levels will choose from over 50 brand new sessions and certification courses at annual education and networking event

WESTMINSTER, CO - January 28, 2016— PSA Security Network (www.psasecurity.com), the world's largest electronic security cooperative, has announced its education conference agenda for TEC 2016. The premier education, exhibit and networking event will be held in Westminster, CO on May 9-12, 2016 at the Westin.

In 2016, TEC will take attendees "Beyond the Edge," featuring 50 brand new courses, including 17 industry certification courses presented by leading vendors and industry associations. TEC courses are aimed at advancing and enlightening security professionals at ALL levels with six unique learning tracks to educate entire teams from technicians to business leaders. The learning paths at TEC 2016 include business management, sales and marketing, cybersecurity, operations professionals, technical professionals and information technology. A complete list of all the courses is available at www.psatec.com/sessions/.

In addition to the education line-up, TEC 2016 will feature more than 100 exhibitors showcasing new security products and services as well as numerous networking events. TEC is open to all security industry professionals and boasts a comprehensive registration package that includes access to all networking events, meals and all non-certification courses at no additional cost. PSA Owners can register for TEC beginning February 8 and general registration for all security professionals will open on February 15.

Visit the all new TEC website at www.psatec.com for information about the entire event, including the complete educational lineup, speakers and details about the networking events and sponsorship opportunities.

###

About TEC 2016 presented by PSA Security Network

TEC, presented by PSA Security Network, is the premier education and networking event that is open to everyone in the physical security industry. TEC offers quality education and certification programs, networking, and dedicated exhibit hours designed to advance the skills and expertise of security industry professionals. For 2016, TEC goes "Beyond the Edge," offering educational programs focused on industry trends and polishing attendees' business acumen with specific learning tracks for sales and marketing, operations, business owners and technical professionals. All TEC attendees benefit from the comprehensive registration package that includes access to all networking events, meals and all non-certification conference courses at no additional cost. www.psatec.com
