Letter of Recommendation:

I was referred to speak to alliantgroup through a fellow NSCA Member; he informed me of all of the great rewards that the R&D Tax Credit brought to his company, I was intrigued and wanted to know if we could benefit from this incentive as well. We were thrilled to learn that our company did in fact qualify for this powerful incentive and we knew that we would partner with alliantgroup on this endeavor.

There is no doubt that alliantgroup is made up of strong, knowledgeable, and driven individuals that have a passion for what they do. We knew in partnering with them that they would have our best interest at heart every step of the way. Working with the project team was great; they set our expectations from the beginning and we knew exactly what to expect along the way. The team's communication was strong and we knew that they were always there to provide clarification or to answer any questions that we had. The interaction was professional and we appreciate that they were always very happy to accommodate our busy schedules. The team did a great job of keeping us on track throughout the study and they really made the process as painless as it could be for us. We appreciate that the study was straight and to the point and they delivered what was promised; alliantgroup delivered a sizable amount of credits for our company and we are very grateful for this.

A special thank you to their team for all of their hard work and efforts on our R&D Tax Study. We look to forward to seeing what additional benefits our partnership will yield us in the years to come.

Sincerely,
