

**FOR IMMEDIATE RELEASE**

**CEC Recognized in Top 50 list by *SCN* Magazine for 10<sup>th</sup> Year in a Row**

*Since 2007, CEC has been named to Systems Contractor News' Top 50 Systems Integrators list, which ranks projected systems integration revenue*

Hiawatha, IA (Dec. 02, 2016) – CEC, a nationally recognized systems and technology integrator based in Hiawatha, IA, is excited to announce that, for the 10<sup>th</sup> consecutive year, it has been named to the *SCN* Top 50 Systems Integrators List.

Every year, *SCN* identifies 50 U.S. integration firms that go above and beyond to set the standard for other integrators. Ranked by projected AV systems integration revenue, the list is a compilation of audiovisual integrators that demonstrated business stability, financial responsibility, and growth in 2016. This year, CEC placed at No. 37 on the list.

AV is just one of the many technology integration solutions CEC offers. Security, fire alarm, healthcare communications, IT, and two-way communications systems can all be integrated with AV solutions to improve safety, efficiency, productivity, and the bottom line.

“CEC's continued success is possible because of our outstanding staff. We're fortunate to have some of the best people in the industry,” says Matt Dlouhy, CEO at CEC. “Technology is exciting and ever-changing; as CEC continues to evolve along with it, we remain consistent in our commitment to delivering excellence through all our services.”

“Looking back at 2006, about 20 integrators remain on the list 10 years later,” says *SCN* Editor Lindsey M. Adler. “The Top 50 is just one way to view an industry where success is determined by more than mere numbers.” View the entire *SCN* Top 50 list [here](#).

**About CEC**

With offices in the Midwest serving local and national customers, CEC offers solution design, integration, and technical services specializing in audio/video, safety and security, IT, structured cabling, and two-way communications.
