Honeywell International, Inc. is known for a variety of things, such as engineering services, aerospace, residential and commercial products and everything in between. However, when we think of Honeywell, we think of the great partnership and learning opportunities that come with associating our company with them. This year's annual Honeywell CONNECT 2016 conference was no different. With over 50 education sessions, attention-grabbing keynote speakers, live demonstrations, and array of new products, our team was not disappointed. The CONNECT 2016 conference concluded with an Awards Gala recognizing success of dealers in the security industry.

Custom Alarm received two awards at the Honeywell CONNECT 2016 conference. Custom Alarm was awarded with the Community Service Award and the Circle of Excellence Award. The Community Service Award was presented to the Custom Alarm team because of our philanthropic efforts with Rochester, MN and Olmsted County National Night Out and the Minnesota Children's Museum of Rochester. Custom Alarm is honored to receive this award, as we truly enjoy giving back to the communities that we live in and work in.

In addition to the Community Service Award, the Circle of Excellence Award was presented in recognition of dealers that display quality service and have embraced the Honeywell authorized dealer program.

About Custom Alarm

Custom Alarm is a locally owned and operated, security-minded company located in Rochester, MN with it's own UL listed Monitoring Response Center. Custom Alarm was started in 1968 with only three employees and has grown to over sixty employees, dedicated to taking care of the customer. Specializing in fire alarm systems, intrusion, video surveillance, and access control for both residential and commercial owners. Custom Alarm is the award winning, community involved company that you can trust to 'have your back' in all areas of security and provide you with confidence, allowing you to rest assured.
