

ISP Pro Audio Selected for Upscale City Center Sound System

ISP Technologies is working with the City of Rochester, Michigan to design a custom sound system for the city's famous Main Street. The system will include custom-designed speaker boxes utilizing ISP's patented High Definition Distributed System and will also be wireless to meet the city's needs.

Rochester is known for having a downtown with posh restaurants, a lively night life and entertainment. It's the perfect mix of historic and hip, attracting both local residents and visitors from around the state. ISP Technologies customizable Pro Audio gear is the perfect fit for such a challenging venue! Wave Solutions from Grand Rapids will be handling the installation and integration of the system.
