

## **IDENTIV EXPANDS PARTNERSHIP WITH PSA SECURITY NETWORK TO INCLUDE COMPLETE PORTFOLIO OF HIRSCH PACS SOLUTIONS**

**FREMONT, Calif., August 25, 2017** — [Identiv, Inc.](#) (NASDAQ: INVE) today announced that the company has expanded its partnership with [PSA Security Network](#) to distribute the complete line of Hirsch by Identiv physical access control system (PACS) and security management solutions, including Hirsch’s award-winning [Velocity Software](#), [Mx Controllers](#), [uTrust TS Physical Access Readers and ScramblePads](#), and [credentials](#). Through this partnership, qualified PSA integrators will gain a competitive edge by offering the highly regarded Hirsch system to their government, commercial, and institutional customers.

“This expanded partnership with PSA provides our end-user base with a network of highly qualified security systems integrators that can offer installation and support services in a consistent and professional manner to key markets across the country,” said John Piccininni, Identiv VP of Marketing and Business Development. “PSA integrators will benefit by providing systems to their customers that are easy to design, install, and maintain, while providing government-level security, control, and features at competitive prices. The Velocity SDK allows for easy integration to video, communications, and other products, allowing PSA integrators to offer complete security management solutions to their customers.”

Long-known for excellent levels of security, reliability, and flexibility, Hirsch systems have been deployed at the world’s most secure, sensitive, and environmentally challenging sites, including intelligence, diplomatic, and military facilities, critical infrastructure, and research and industrial facilities. The Hirsch ScramblePad set the standard for secure code entry and the latest uTrust Readers and credentials provide a quality, alternative source for proximity and contactless smart card readers and credentials.

“PSA is excited to be expanding our partnership with Identiv to include the entire Hirsch by Identiv solution portfolio,” said Craig Patterson, PSA Security Network Director of Vendor Management. “The Hirsch product line, combined with Identiv’s latest reader family, serves a need and market that our members are seeking to address, and Identiv products are a great fit.”

Blending performance, security, and aesthetics, Hirsch by Identiv physical access solutions offer the most innovative selection of readers, controllers, and credentials, and have been regarded as a global standard for over 36 years. The Hirsch portfolio is completely scalable from federal government to enterprise to small-to-medium businesses.
