

Installation as easy as 1-2-3:

## **Electro-Voice EVID-S commercial loudspeakers for indoor and outdoor use with timesaving wall-mount system**

- Designed with the contractor in mind – exceptionally fast and easy installation
- Compact and cost-effective – no-compromise, superior sound quality
- Acoustically and aesthetically matched with other EVID loudspeakers
- All EVID-S loudspeakers weather resistant (IP54), IP65 weatherproof versions for 5.25 inch models

**Las Vegas, NV, June 6, 2018** – The EVID-S series is the latest member of the EVID (EV Innovative Design) family of commercial loudspeakers for installed applications. Every aspect of the EVID-S series has been designed from the ground up to ensure efficient installation for the contractor and excellent results for the end-user. The series includes 4-inch, 5.25-inch and 8-inch 2-way models with matching dual-10-inch and single 12-inch subwoofers, making it easy to select a suitable model a specific space – a new go-to solution for distributed sound systems.

All EVID-S models offer Electro-Voice-engineered components for superior sound quality, low-profile looks and robust reliability for a wide range of indoor and outdoor applications. These include retail environments; hospitality settings such as bars, lounges, patios, pool areas and restaurants; conference and meeting rooms; fitness clubs; performing arts and sports venues; and houses of worship. The series offers true weatherproof construction for outdoor spaces, confirmed by extensive and rigorous testing above and beyond industry norms. All models are paintable and IP54 certified for weather resistance; an IP65 weatherproof version is available for the 5.25-inch loudspeaker cabinet and the 10-inch subwoofer models.

The innovative, new wall-mount system makes installation literally “as easy as 1-2-3” – quicker and easier than ever before: Attach the wall-mount (a built-in bubble level saves time) and terminate the cables inside, apply the paint cover to protect the wall-mount until construction is completed (when the cover can be removed), and then simply slide the pre-wired speaker with adjustable arm onto the wall-mount and lock into place.

**Models:**

- **EVID-S4.2** (4" two-way cabinet)
- **EVID-S5.2** (5" two-way cabinet)
- **EVID-S8.2** (8" two-way cabinet)
- **EVID-S10.2** (dual 10" subwoofer)
- **EVID-S12.2** (single 12" subwoofer)

**Selectable versions:**

- **B, W** – black, white color
- **T** – output transformer
- **X** –waterproof IP65 rating (5.25-inch versions only)
