## BrightSign Ships TAA-compliant Media Player for U.S. Government Agencies

New BrightSign XT1144-T Satisfies Trade Agreements Act (TAA) Requirements for Fair and Open International Trade

LOS GATOS, Calif. — (November 28, 2018) — [BrightSign LLC](#)® today announced availability of the BrightSign XT1144-T, a variant of the XT1144 manufactured in accordance with the Trade Agreements Act (19 U.S.C. & 2501-2581). The new media player's performance and specifications are identical to the XT1144, however the manufacturing process is TAA-compliant, paving the way for sales into government agencies within the United States.

The BrightSign XT1144-T delivers unsurpassed performance for enterprise applications with a powerful 4K video engine, BrightSign's fastest HTML and graphics engine and the company's most powerful CPU. This state-of-the-art technology for leading-edge digital signage installations supports H.264 & H.265 decoding, Dolby Vision and HDR10+ media profiles, Full HD and 4K playback including Mosaic Mode. The new media player offers a hardware-accelerated HTML5 rendering engine that enables flawless playback of multiple modular HTML5 assets including JavaScript, CSS animations, WebGL and even swipe/gesture interactivity. The XT1144-T offers Gigabit Ethernet, as well as 4K full-resolution graphics, PoE+ and HDMI In for Live TV playback.

The BrightSign XT1144-T sells for \$850 and is available now. For more information, visit [www.brightsign.biz](http://www.brightsign.biz).
