

**FOR IMMEDIATE RELEASE:**

## **Spectrum Industries Inc. Introduces the TechCenter**

**CHIPPEWA FALLS, WI, July 23, 2018-** Spectrum Industries Inc., a premier manufacturer of school furniture products, headquartered in Chippewa Falls, WI, is excited to introduce its newest active learning solution, the TechCenter.

The TechCenter is a technology driven product that can come in either a single (27.75" wide) or double (51" wide) unit. There are a number of different display options available for the TechCenter including optional dry erase boards and the ability to hold up to two 70" monitors. This new product features a removable rear locking panel that provides full access to an optional 12 RU rack cube that can hold all AV or IT equipment.

The TechCenter provides an optional power module featuring two power outlets and two USB ports that seamlessly integrate power. Electrical options include the Power Switch, eLogix Timer, or the PowerProdigy to charge multiple devices. The TechCenter is ETL listed to the UL60950-1 standard.

"The versatility in design and application allows this product to support various types of technologies and functions as well as builds upon our most recent family of tables to create unique and engaging environments," Jones said.

With optional casters, the TechCenter can help reconfigure any classroom due to its easy mobility and can stand the test of time due to its powder-coated, heavy-gauge steel frame. From the recent expansion of Spectrum's Expressions Line, new vibrant colors are available for the TechCenter providing thousands of laminate, edgeband, and metal combinations that can fit into any education, corporate, government or medical setting.
