ClarkPowell elevated to national account status with Sony B2B Business Unit

ClarkPowell has always serviced their nationwide clients through our affiliation with the PSNI Global Alliance. We have proven our commitment to this aim by recently appointing our National Project Coordinator, Jacob Meadows.

Sony B2B Product Solutions has recently rewarded our commitment to nationwide coverage by elevating ClarkPowell to national account status - one of only 12 in the country. This has many benefits to us and to you, our customers. We now have access to one of two National Account Managers and unparalleled access to higher management at Sony.

We can supply the entire range of Sony Bravia Displays, Projectors, PTZ Cameras, Edge Analytics and Crystal LED 's across the nation.

President and owner of ClarkPowell, Susan Pinch said *"We are extremely honored to have received this recognition from Sony; we have been selling their products since my father started the company back in 1983, and we have enjoyed a fantastic relationship throughout the years. This next step just demonstrates our commitment to the Sony Team and their product line"*.
