

## **Jupiter Expanding Its European Footprint**

*New warehouse distribution offers expedited inventory to EMEA*

Hayward, CA - April 28, 2022 – Jupiter, the pioneers in video wall processors and global leader in ultra-wide 21:9 displays, recently secured a warehouse in the Netherlands to further their investment in the EMEA region. The new warehouse signifies the company’s growth commitment to its international market and benefits customers greatly with faster delivery and inventory available locally.

“We’re excited to announce our new warehouse distribution in the Netherlands. Along with the warehouse we’ve increased our presence with additional sales, pre-sales, and marketing throughout the region,” said Sidney Rittenberg, CEO of Jupiter. “We’re investing heavily into developing connections and cultivating opportunities in the region for Jupiter. We’re certain that having inventory warehoused locally will significantly expediate product delivery and logistics quality, as well as lower overall project costs. That coupled with onsite quality control measures should exceed our customers’ expectations.”

Product is currently in stock and shipping from the Netherlands. To learn more or contact your local sales rep, visit this link [www.jupiter.com](http://www.jupiter.com). You can also see Jupiter products in action during the ISE Show in Barcelona from May 10-13 in stand #3E250 <https://jupitersystems.ac-page.com/ise-meeting-request> and InfoComm in Las Vegas from June 8-10 booth #N2345 <https://jupitersystems.ac-page.com/infocomm-2022-meeting-request>.

### **ABOUT JUPITER**

Jupiter is pioneering the future of visual experience with ultra-wide 21:9 displays as well as mission critical collaboration solutions worldwide. For more than 40 years, Jupiter has empowered federal agencies, public and private organizations, and large and small corporations with technology that drives decision-making. Companies that seek to deliver revolutionary ways to process multiple, simultaneous data from disparate sources and display them effectively with control come to Jupiter. Recognized as the innovation leader in collaborative visualization, Jupiter’s breakthroughs and product innovations have shaped the industry.
