

# Get started and stay ahead with 3 FREE key cybersecurity tools

Flexible. Scalable. Powerful.

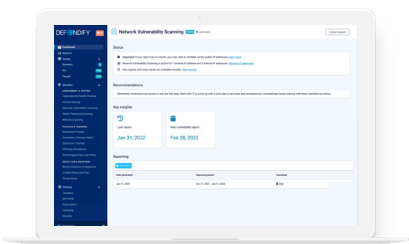

The **Defendify Essentials Package** offers 3 award-winning cybersecurity tools that help organizations know where you stand and where you might have gaps, while keeping you informed of evolving cyber threats.

## Cybersecurity Assessment

*Understand your cybersecurity posture*

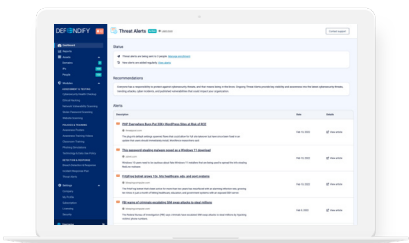

Answer simple questions about your cybersecurity people, processes, and technology to better understand your risk, and get recommendations for improvement.

## Network Vulnerability Scanner

*Identify critical network vulnerabilities*

Automated network scans with artificial intelligence and advanced logic regularly reports security gaps, recommendations, and steps for remediation.

## Threat Alerts System

*Stay ahead of trending threats and recent incidents*

Receive aggregated information about recent cyber-threats, industry incidents, and other cyber-related activities that could affect your organization.

**Get the FREE  
Essentials Package at
